If weather resistance is required, please contact CEA Instruments for pricing.

1. The safe area beacons, both flashing and steady, are available in red, amber, blue, green or opal lens. Only amber lens units are ex-stock, therefore delivery of other colors may be extended, please check before ordering.
2. The safe area beacons can be suited together to form 'Traffic Lights' if required.
3. Sounders are normally 2 stage with tone options selected by DIL switch.
4. UL versions of YL6, YO6 & V6 units are available to special order contact Sales office for price and delivery.
5. The sound input level of IS sounder C03205 varies depending on operating voltage and barrier used. The nominal level at 24V DC is 100 dBA. When used on 12V with 715 barrier the output is reduced by 4.5 - 6.5 dBA. With 24V supply via a 728 barrier the output level is reduced by 3 dBA.
